

Case Study:

Quadratek further boosts credentials with ISO 22031 and CHAS Premium Plus certifications

Overview

Quadratek, one of the UK's leading providers of IT services and expertise, has further boosted its accreditation library with ISO 22301 certification and CHAS Premium Plus.

Boosting our credentials

ISO 22301 is the international system specification covering the management of business continuity.

Designed to protect, reduce the likelihood of occurrence, prepare for, respond to, and recover from disruptive incidents when they arise, with a business continuity management system, Quadratek is prepared to detect and prevent threats.

Holders of ISO 22301 are reassessed every 12 months.

In a further development, Quadratek received the CHAS Premium Plus certification in recognition of its health and safety management system.

Certificate No. 10585
ISO 9001 ISO 14001
ISO 22301 ISO 27001
OHSAS 18001

Speaking of the recently acquired certifications, Simon Randall, director at Quadrated, said: “ensuring we can continue to provide high quality on-time delivery of services, no matter what happens, is of paramount importance to Quadrated, which is why obtaining ISO 22301 provides our customers with this assurance. To further demonstrate our commitment to ethical trading, Quadrated has obtained CHAS Premium Plus which certifies full compliance with Health & Safety, Environmental, Quality Management, Equal Opportunities, Financial & Business Standing, Anti-Bribery & Corruption, and Modern Slavery .”

The new – and improved – certifications reinforce an impressive list of safety accreditations held by Quadrated. The company is, for a second year, accredited with a Royal Society for the Prevention of Accidents (RoSPA) Silver award and holds a SafeContractor certificate for IT infrastructure & network cabling installations. All members of the Quadrated management team are IOSH Managing Safely qualified.

Established in 1997, Quadrated offers a seamless IT service through nine core competencies:

- systems and support
- hardware break fix
- structured cabling
- professional services
- fibre optic cabling
- recruitment
- Wi-Fi
- asset disposal
- data centres

Safety and security matter more than ever in our work these days – and we take both disciplines very seriously

The company serves clients in a wide range of industries, from defence to publishing, from finance to central and local government. All Quadrated engineers are SC (Security Check) cleared and, where applicable, its installation engineers are CSCS (Construction Skills Certification Scheme) cardholders.
