

**Case Study:**  
Network | CCTV | AV

**Customer:**  
Off the Ropes

## Overview

Off The Ropes is a charity delivering boxing-based wellbeing programmes. As part of the new NHS Heathview Community Hub, they required a modern network, CCTV and audio systems to support daily activity across gym, office and public spaces. Quadrature designed and installed a complete, future proof solution

### Challenge

Reliable, safe network, CCTV for safeguarding, building access control, audio system for sessions & events, Easy to manage and scalable.

### Our Solution

Quadrature delivered a custom design, installation, configuration, and testing including structured cabling, Wi-Fi and CCTV for coverage and performance, and installation of access control and AV systems.

- **Network & Cabling**

- Data cabinet with power
- Cat6 cabling throughout
- Wi-Fi access point
- Managed PoE switch
- Fully tested & documented

- **CCTV**

- 4 dome cameras, 8-channel Networked video recorder with storage

- **Audio System**

- Dual zone amplifier, Wall-mounted speakers, High-grade cabling

### Conclusion

The Hub benefits from:

- Reliable, secure connectivity
- Improved safeguarding
- High quality system

The installation provides a strong digital foundation, enabling Off The Ropes to operate safely and confidently while expanding their community impact.
